Trench Rossi Watanabe's Israeli Desk offers a wide range of services to Israeli companies negotiating or investing in Brazil or Latin America, with a team that has a strong connection with Israeli values and culture.

The relationship between Brazil and Israel is one of the most promising, having strengthened considerably in recent years. The connection between the two nations is due to the significant presence of the Jewish community in Brazil, one of the 10 largest in the world.

Trench Rossi Watanabe's Israeli Desk is composed of lawyers who have a strong connection with Israeli values and culture, allowing our team to offer specialized and targeted legal services, considering the "know your client" concept adopted by our firm.

We also offer our clients access to a global perspective through our strategic cooperation agreement with the firm Baker McKenzie, one of the most extensive and solid networks in the legal market. This broadens the opportunities and global vision of our advice.

Trench Rossi Watanabe is one of the largest law firms in Brazil and is ranked among the most reputable in all areas of law. Established over 60 years ago, we have extensive experience in effectively advising on pioneering and highly complex matters and transactions. With more than 200 practitioners in the key cities of São Paulo, Brasília, Rio de Janeiro and Porto Alegre, we can steer our clients with knowledge and confidence through Brazil's laws, legal system and unique business practices.
