

MINING

TRENCH ROSSI WATANABE ADVISES MINING COMPANIES ON REGULATORY, ENVIRONMENTAL, TRANSACTIONAL, ADVISORY, TAX AND LITIGATION. THE FIRM GOES THE EXTRA MILE TO OFFER SOLUTIONS THAT HAVE A POSITIVE IMPACT ON ITS CLIENTS' BUSINESSES.

Our lawyers have the skills and knowledge to assist not only in specific mining regulatory matters, but also in related themes such as environmental, tax, labor, transactional and litigation issues. The office's view and approach to mining encompasses all aspects of the project, from financing to logistics and operations.

Moreover, the practice carries the international background and worldwide network that comes with the strategic cooperation* with the global firm Baker McKenzie, present in more than 45 jurisdictions.

**Trench Rossi Watanabe and Baker McKenzie have executed a strategic cooperation agreement for consulting on foreign law.*

HOW CAN WE HELP YOU

We work collaboratively with clients through all phases of a mining project, including the following:

- » Research and extraction.
- » Expansion, M&As (including those related to energy transition) and dispositions.
- » Real estate related aspects.
- » Drafting and negotiating all kinds of mining agreements.
- » Regulatory issues related to mining activities (e.g., mine closure and mining permits).
- » Environmental licensing and public hearings.
- » Research, extraction, processing and transportation.
- » Marketing and sales (buying and selling minerals).
- » Financing.
- » Litigation in the administrative, judicial and arbitral venues.
- » ESG, engagement with communities, governmental and institutional representatives.
- » Energy supply agreements (e.g., corporate PPAs, self-production structures).
- » Identification of business opportunities.

We also help our clients with environmental aspects of the industry such as:

- » Strategic advice on surface, environmental and expansion issues.
- » Due diligence of projects, assets and operations.
- » Legal assessment of environmental and social risks.
- » Environmental aspects concerning the lands where the project is being implemented and operated.
- » Mineral activities in restricted areas, borders and conservation units.
- » Environmental permitting.
- » Identify opportunities for investment in new decarbonization technologies.

Our practice is recognized by **Análise Advocacia** in the category "Economic sector / Steel and Mining".
